

World's smallest 3G Cam + 10hr Recording!

3G CAMERA MINI WITH SUPER RECORDING TIME

We are pleased to launch the world's smallest 3G camera with superior recording time up to 10 hours. It is ideal for remote surveillance, covert operations and rapid deployment.

This mini 3G camera can be supplied with infra-red source or 10 cm extended lens to provide extra flexibility for your surveillance needs.

The camera operates on battery up to 50 hours standby time, and it can be recharged using micro USB cable.
