

## JUNCTION BOX 3G CAMERA

We believe that your monitoring, surveillance solutions should be flexible, reliable and easy to deploy. That is why we use some of the most advanced and proven technologies that are available in the world to date.

This Junction Box 3G Camera transmits live video and picture on request, as well as sending alert to your mobile phone upon movement detection. The camera will work on battery up to 50 hours standby time, and it will be recharged when connected to the charger.
