

3G CAMERA WITH COVERT INFRARED

We believe that your monitoring, surveillance solutions should be flexible, reliable and easy to deploy. In our quest to provide better and better 3G surveillance we have introduced our new 3G camera with covert Infra-red source.

This 3G camera come with invisible infrared LEDs, offers covert monitoring solutions for: offices, labs, homes, out-buildings, empty premises and vehicles, even if there is no light. The camera and infrared LEDs can be powered by a single 12v source.

TECHNICAL DETAILS

Mobile networks:

HSDPA/UMTS 850 / 1900 / 2100Mhz

EDGE/GPRS/ GSM 850 / 900 / 180 / 1900Mhz

Video Call:	3GPP at QCIF (176*144)
Battery:	1500mAh
Power:	12v adaptor
RF Sensors:	315/433 Mhz
Additional:	Covert infrared LED

3G CAMERAS

THE USER CAN:

- Make a video call to the 3G camera to watch live video.
- Make a voice call to the camera to listen what's happening.
- Send a SMS command to setup the camera.
- Send a SMS command to request a photo via MMS
- Send a SMS command to request video clip via MMS
